WHY “MY COOKING BOX”

TERESA & ROBERTO discovered this brilliant idea, which has now become one of the most interesting projects in Italy. In March 2019, My Cooking Box was named by the Senate of the Italian Republic one of the most innovative Italian companies.

TERESA & ROBERTO decided to become these products' Exclusive Distributor for The Republic of Cyprus and Greece so to introduce customers in these countries to this incredible concept and outstanding experience.

The idea of My Cooking Box was born during EXPO in Milan when Chiara Rota (a young management engineer) decided with her two partners to launch a start-up that would bring to the Italian Market My Cooking Box, a small box containing all necessary ingredients to prepare at home fantastic recipes of famous Italian Chefs based on the best Italian cooking traditions. The Company is now growing fast, expanding to other continents and countries.
